Annwyl Carl

Draft budget 2015-16

To assist the Environment and Sustainability Committee with its scrutiny of the Welsh Government's draft budget 2015-16, I would be grateful if you could provide some information in relation to the aspects of your portfolio that fall within the Committee's remit.

Can you please provide details (to BEL level) of any changes to allocations for the Planning SPA.

In particular the Committee is interested in the implications of the forthcoming Planning Bill and associated changes that may arise from the Planning Wales consultation and how these have influenced your financial planning.

I thank you for considering these questions and would appreciate a response by 30 September 2014.
